

“GRID” RABBIT STUNNER MOD. ATP-002-R

Grid electronic stunner – Maximum production: 1,800 rabbits/hour.

The machine is compliant with EC regulations.

An electronic panel with data logger*, touchscreen with registration of stunning data, anaesthesia adjustment 0-400 V, power on light.

Transformer with separate windings.

Interchangeable electrodes on the grid.

The electrodes only activate upon inserting a rabbit, which is very important to prevent workplace accidents.

Correct stunning confirmation light.

Stainless steel machine.

Weight: **52 kg**

() Pursuant to EC regulations, as of January 2013, all new slaughterhouses must comply with the following (annex II of Regulation 1099/2009): Stunning equipment must be equipped with a system that records the stunning settings and these records must be kept for one year. It enters into effect for all other slaughterhouses as of 8th December 2019.*
